Parent Presentation

Gambling and Gaming Harms

Wed 12 February | 18:30 | All Parents | College Library

We are pleased to welcome **Adele Bourne**, Education and Training Lead for **ARA Recovery for All**, to deliver an insightful session for parents and carers on the potential harms associated with gambling and gaming.

Adele has extensive experience in this field and has previously worked with our Year 8 and Year 10 pupils to raise awareness of these issues. On the day of the session, she will also be running workshops with our Year 10 pupils, equipping them with valuable tools to navigate these challenges.

This session is relevant for parents of children of all ages, from Prep to College, as it explores the links between popular computer games and gambling behaviours, helping families understand how to identify risks and promote healthier online habits.
